

Legal Public Notice of Intent

The Arkansas Employment Security Department intends to purchase a server-based algebra curriculum program to help students in grades 7-10 achieve equity in higher level mathematics and thinking skills, regardless of the students' cultural or economic background. The system will be set up in a minimum of two to three classrooms with a capacity of 30 students each.

Interested bidders may obtain a list of specific requirements by contacting sharon.robinette.aesd@mail.state.ar.us not later than 4:30 pm Thursday, March 13, 2003. Potential bidders will be required to certify they can meet the specific requirements. The Arkansas Employment Security Department reserves the right to cancel this procurement process.
